PROFESSIONAL EXPERIENCE

Software Developer (Web, Mobile & Desktop) Baghdad, Iraq

- Versatile Software Developer with a strong foundational background in designing and building responsive Web, Mobile, and Desktop applications.
- Collaborated with designers and university classmates to refine layouts and interactions for various software projects.
- Architected and built the frontend and backend infrastructure for multiple applications, ensuring high availability, seamless data processing, and secure API integrations.
- Gained experience in debugging, version control (Git), and structured full-stack workflows.
- Explored new technologies and modern frameworks to streamline development processes and enhance user experience.

EDUCATION

Computer Engineering Technology 2023 – 2027
Electrical Engineering Technical College, Middle Technical University

TECHNOLOGIES

Web & Mobile
React, React Native, Flutter, Dart, Tailwind CSS, HTML & CSS

Tools
Version Control (Git & GitHub), VS Code, Cursor

Backend & Desktop
Supabase, Vite

Engineering Tools
MATLAB, Cisco Packet Tracer

SKILLS

- Collaboration
- Adaptability
- Attention to Detail
- Problem-Solving & Research
- Communication & Public Speaking
- Able to work under pressure

PROJECTS

Portfolio
Web Development Designed and developed a fully responsive interactive personal portfolio using React, Tailwind CSS, and Framer Motion to showcase software engineering projects with fluid UI animations.

Nozom
Desktop
Flutter, SQLite, PDF Generation Developed a commercial offline desktop student management system for educational institutes featuring automated financial tracking, PDF receipt generation, and daily attendance logging, packaged with Inno Setup.

Movies
Web & Mobile
Developed a cross-platform movie discovery and watchlist application using React, React Native, and Supabase, integrating the TMDB API for real-time media streaming data retrieval and user authentication.
